Profile Summary

Software Engineer with Interest in Web Development (Next JS), (React and Django) or (MERN) and DevOps. Grip on Docker, Kubernetes, React Hooks, Props, Components and DRF(Django RestFramework). I've worked on Next JS as well developed a Portfolio website (Which is live) using server-side rendering and client-side rendering. I am also familiar with Wordpress website designing and can edit e-commerce setup using wo-commerce. Familiar with CI/CD pipelines, containerization, and deploying applications using modern DevOps tools. Skilled in Git, cloud basics, debugging, and eager to gain hands-on DevOps and cloud deployment experience.

Technical Skills

Web Development

- React (Hooks, Props, Components)
- Tailwind CSS
- Next JS
- Django Backend Development
- Basic DRF and REST API
- WordPress (Wo-commerce)

DevOps & Cloud

- Docker, Docker Compose, Docker CLI, Kubernetes, Minikube, Kubeadm
- CI/CD Concepts: pipelines, build and deployment flow
- CI/CD Tools (Basics): Jenkins, Ansible, Grafana, Prometheus, Terraform
- Cloud Basics: AWS (EC2, IAM)

Databases

- PostgreSQL
- MySQL
- SQLite
- Mongo DB

Version Control & Automation

- Git, GitHub
- Bash scripting, Python scripting
- Agile & Scrum
- Debugging & Problem-Solving

Experience

Full Stack Intern

Zayyan Softtech, Remote — June 2025 – August 2025 (3 Months)

- React and Django was used as tech stack.
- Developed Projects like Foodie, Travel and Tourism for them.
- Translated designs from figma and implemented them using React.
- Build scalable APIs for frontend to interact.

Frontend Developer

Glaxit Software Agency, OnSite (Taxilla) — January, 2026

- Developed responsive UI components using React.js and Tailwind CSS.
- Converted Figma designs into pixel-perfect web interfaces.
- Integrated REST APIs using Axios and handled authentication using JWT.
- Optimized website performance and improved SEO using Next.js features.
- Collaborated with backend developers using Git and Agile workflow.
- Maintained and updated E-commerce websites using Wordpress

Notable Projects

Portfolio Webiste

React.JS, Next.JS

- It is a portfolio Website Developed using Next.JS and Tailwind CSS
- It has Client side and Server side rendering components
- Dynamic routing is understood and implemented
- Figma template translated into a wonderful website for self purpose
- Deployed through vercel.

DeepHeal HMS (CNN Model for Depression Detection)

Django, AI, TensorFlow

- Built an AI system for detecting stress levels using voice and text inputs.
- Achieved high accuracy using deep learning and NLP techniques.
- Fully automated CI/CD pipeline using Jenkins. A ready to use API.

Hospital Management System

React.JS, Django(DRFs), JWT Auth, PostgreSQL

- Its a react and Django website developed for my FYP model which was integrated into this.
- It has Appointment booking, Lab test booking, Medical Records etc features using DRF APIs
- These DRF APIs are fetched through NPM Axios and fetch methods on React Frontend
- I've added Authentication using JWT tokens in cors headers and are passed in HTTPs headers

Job Board Website

Laravel, MySQL, Tailwind CSS

- Developed a job portal with authentication, job listings, and applications.
- Integrated automated emails and REST APIs.
- Containerized and orchestrated the application.
- Deployed on AWS EC2.

Travel and Tourism

React.JS, Django(DRFs), JWT Auth, SQLite

- Developed on React and Django used for Travel site bookings. Much like an e-commerce.
- Also Deployed on AWS and have a managed CI/CD pipeline for it using Jenkins

Foodie

React.JS, Django(DRFs), JWT Auth, PostgreSQL

- Also developed using React and Django. Its a recipe sharing website which has a blogging feature for the users community to interact
- Its Images has been created and pushed to Dockerhub

Education

COMSATS University Islamabad, Wah Campus, Pakistan

BS in Software Engineering

Jan 2026

Certifications

- Machine Learning Specialization — Andrew Ng (Coursera)
- Meta Front-End Version Control (Coursera)
- IBM Introduction to DevOps (Coursera)

Languages

- English — Fluent
- Urdu — Native

Additional Information

Available for freelance, remote, and full-time roles.
